Product Description

Big scale mobile jaw stone crushers for quartz basalt dolomite gold ore crushing

Mobile stone crusher also called mobile crusher plant, mobile stone crusher, or mobile crushing plant. This mobile crusher is an integrated machine of **vibrating feeder, stone crusher, belt conveyor, vibrating screen** and other auxiliary parts. So mobile crusher is a mobile stone crushing plant in fact. The mobility of mobile crusher can overcome the limited by the crushing place, and reduces high material transportation cost meanwhile. The most important is that, powder supply can be diesel engine or motor drive. If the quarry doesn't have electric, it can work with **diesel engine** power supply.

Our Product Introduction

Features and Advantages

- **Easy to move:** It is not limited by the sites, can be moved based on customers' requirements.
- **Deisel engine** or Motor drive for power supply. If the quarry doesn't have electric, it can work with diesel engine power supply.
- **High crushing ratio:** Large stones can be quickly broken into small pieces.
- **Hopper mouth adjustment range is large,** can meet the requirements of different users.

- **High capacity:** It can handle 10- 200 tons per hour capacity.

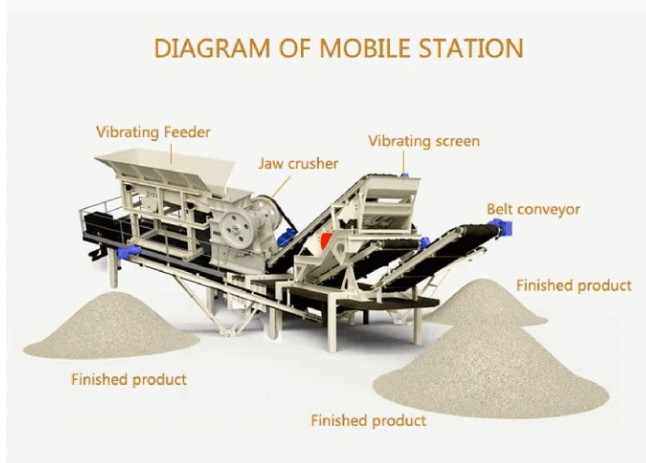

- **Simple structure** and Simple maintenance.

- **Reliable operation,** low operating costs.

Working Principle

According to different crushing process requirements, it can be composed of "first crushing and then screening" or "first screening and then crushing" process. It can also be combined into three kinds of coarse, medium and fine crushing screening system according to the actual needs.

1. Vibrating feeder 2. Jaw crusher 3. Heavy duty rock 4. Discharging belt conveyor
