

## Grinding Conditions Can Grind Under Dry and Wet Conditions with Hammer Grinder Pulverizer

Our Product Introduction

more products please visit us on [mining-crushermachine.com](http://mining-crushermachine.com)

### Basic Information

- Place of Origin: Zhengzhou, China
- Brand Name: Ascend
- Certification: ISO9001, CE
- Model Number: PC400x300 PC600x400 PC800x600 PC1000x800
- Minimum Order Quantity: 1 set
- Price: negotiable
- Packaging Details: 1. Standard parts packed in the wooden cases. 2. Big parts packed by plastic membrane. 3. The whole machine is loaded in the container.
- Delivery Time: 7-10 working days
- Payment Terms: L/C, T/T, Western Union, MoneyGram
- Supply Ability: 100 sets per month

### Product Specification

- Warranty Period: 1 Year
- Product Use: Suitable For Crushing Medium-hard Materials
- Grinding Conditions: Can Grind Under Dry And Wet Conditions
- Applicable Industry: Energy&Mining
- Output Size: 0-1mm
- Advantages: Simple Structure, High Grinding Rate, High Production Efficiency
- Machines Classification: Stone Crashing Machine
- Product Category: Hammer Mill Crusher
- Highlight: **Grinding Conditions Hammer Grinder Pulverizer , Dry Hammer Grinder Pulverizer, Wet Hammer Grinder Pulverizer**

## Product Description

### Product Description:

The working principle of this hammer crushing pulverizing mill is simple yet effective. The motor drives the rotor to rotate at a high speed through the belt, and on the rotor are series of hammers. When the material enters the working area of the hammers, the rotating hammers with high rotation speed begin crushing the material. The crushed product that meets the required size can be discharged by the outlet and become the final products, while the large size product is brought back to the crushing area by the hammers for being re-crushed until it reaches the required size.

The final products of this grinding crusher pulverizing mill include gravel, limestone, and coal, making it an ideal choice for those who need to crush these materials on a regular basis. Whether you are in Kenya, Zimbabwe, or Dr. Congo market, this hammer crusher can help you get the job done efficiently and effectively.

Overall, the PC400x300 small capacity 3-8tph output size 0-1mm gravel limestone coal hammer crusher is a reliable and efficient grinding crusher pulverizing mill that can help you get the job done with ease. Its easy-to-use design and powerful crushing capabilities make it an ideal choice for those who need to crush medium-hard materials. Whether you are looking for a hammer crusher for personal or professional use, this product is sure to meet your needs.

### Features:

Product Name: Hammer Mill Crusher

Product Category: Hammer Mill Crusher

Warranty Period: 1 Year

Spare Parts Availability: Available

Adjustability: Can adjust the grate strip gap according to user requirements and change the material particle size

Output Size: 0-1mm

This Crushing Hammer Mill Machine is perfect for grinding and pulverizing materials. The Crusher Pulverizing Mill is ideal for reducing particle size and achieving a fine result.

### Technical Parameters:

Spare Parts Availability	Available
Core Selling Point	Easy To Operate
Grinding Conditions	Can grind under dry and wet conditions
Output Capacity	3-8tph
Contact Information	Available
Final Products	Gravel, limestone, coal
Machines Classification	Stone Crashing Machine
Target Market	Kenya, Zimbabwe, Dr Congo
Output Size	0-1mm
Material	Limestone, coke, coal, etc.

This product is a Crushing Mill Pulverizer Machine, also known as a Hammer Grinder Pulverizer or Pulverizing Hammer Mill.

### Applications:

The Ascend Hammer Mill Crusher is a versatile product suitable for crushing medium-hard materials. It is perfect for the energy and mining industry. The product comes in four different models: PC400x300, PC600x400, PC800x600 and PC1000x800. All models are certified with ISO9001 and CE certifications. The Hammer Mill Crusher is manufactured in Zhengzhou, China, and has a minimum order quantity of 1 set.

The price of the product is negotiable and the payment terms accepted are L/C, T/T, Western Union, and MoneyGram. The supply ability of the Hammer Mill Crusher is 100 sets per month, and the delivery time is 7-10 working days. The packaging details include standard parts packed in wooden cases, big parts packed by plastic membrane, and the whole machine loaded in the container.

The Hammer Mill Crusher is a crusher pulverizing mill that works on the principle of crushing medium-hard materials. The motor drives the rotor to rotate at a high speed through the belt, and on the rotor, there are series of hammers. When the material enters the working area of hammers, the rotating hammers with high rotation speed crush the material. The crushed product meeting the required size can be discharged by the outlet and become the final product. The large size product is brought back to the crushing area by the hammers for being re-crushed until it reaches the required size.

The Hammer Mill Crusher is a pulverizing machine mill crusher that is suitable for grinding medium-hard materials. It can be used in various product application occasions and scenarios. The product is perfect for crushing coal, gypsum, limestone, cement, and other materials. It can be used in the cement industry, mining industry, chemical industry, and other industries that require grinding and crushing of medium-hard materials.

If you are interested in purchasing the Hammer Mill Crusher, you can contact the manufacturer for more information. The contact information is available on the website. Order your Hammer Mill Crusher today and enjoy the benefits of a high-quality product that is designed to last.

## Support and Services:

Installation and setup assistance

Regular maintenance and repair services

Technical troubleshooting and problem-solving

Upgrades and replacements of parts and components

Training and education on proper use and operation of the hammer mill crusher

We are committed to providing our customers with the highest level of support and service to ensure the optimal performance and longevity of their hammer mill crusher.

## Packing and Shipping:

Product Packaging:

The Hammer Mill Crusher product will be packaged in a sturdy cardboard box with bubble wrap for added protection during shipping.

Shipping:

Our standard shipping method is through ground shipping using reputable carriers. Shipping costs will be calculated based on the destination and weight of the package. Expedited shipping options are also available for an additional fee.

## FAQ:

**Q1: What is the brand name of the Hammer Mill Crusher?**

A1: The brand name of the Hammer Mill Crusher is Ascend.

**Q2: What are the model numbers available for the Hammer Mill Crusher?**

A2: The model numbers for the Hammer Mill Crusher are PC400x300, PC600x400, PC800x600, and PC1000x800.

**Q3: What certifications does the Hammer Mill Crusher have?**

A3: The Hammer Mill Crusher is certified with ISO9001 and CE.

**Q4: What is the place of origin for the Hammer Mill Crusher?**

A4: The Hammer Mill Crusher is made in Zhengzhou, China.

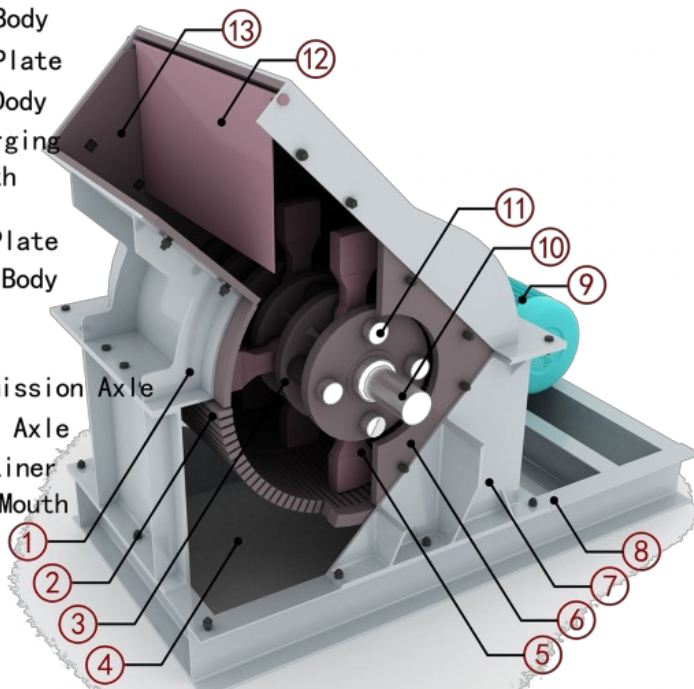

**Q5: What are the payment terms for the Hammer Mill Crusher?**

A5: The payment terms for the Hammer Mill Crusher are L/C, T/T, Western Union, and MoneyGram. The price is negotiable and the minimum order quantity is 1 set. The supply ability is 100 sets per month and the delivery time is 7-10 working days. The packaging details include standard parts packed in wooden cases, big parts packed by plastic membrane, and the whole machine loaded in the container.

1. 上机体 Upper Body
2. 篦条板 Grate Plate
3. 锤盘 Middle Dody
4. 出料口 Discharging Mouth
5. 锤头 Hammer
6. 侧衬板 Side Plate
7. 下机体 Lower Body
8. 支座 Stand
9. 电机 Motor
10. 传动轴 Transmission Axle
11. 锤头轴 Hammer Axle
12. 入料口挡板 Liner at Feeding Mouth
13. 衬板 Liner

Model	Input size(mm)	Output size(mm)	Capacity(t/h)	Power(kw)	Weight(kg)
