

Gold Washing Plant For Energy Mining Primary Separation Stage Of Placer Gold Mining

Our Product Introduction

more products please visit us on mining-crushermachine.com

Basic Information

- Place of Origin: China
- Brand Name: Ascend
- Certification: CE/ISSO9001
- Model Number: GST20 GST40 GST50
- Minimum Order Quantity: 1 set
- Price: USD 3500-30000 Per set
- Packaging Details: Water and rust proof in wooden box or cotainer
- Delivery Time: 7-10 working days
- Payment Terms: T/T, Western Union
- Supply Ability: 10 set per month

Product Specification

- Advantages: Suitable For Small To Large Materials, Multiple Filters, Multilayer Displays, Replaceable Film Plate, Efficient And Large Capacity
- Specification: GTS20, GTS50, MGT100, MGT200 Models With Varying Size, Capacity, Power, Trommel Screen, Sluice Box, Water Supply, And Recovery Rate
- Core Selling Point: Hot Product 2024
- Design: Customizable Based On Mine Details
- Screen Design: Unique Design For High Capacity And Performance, Prevents Clogging
- Usage: Primary Separation Stage Of Placer Gold Mining
- Product Name: Gold Washing Plant Mining Machinery For

Product Description

Product Description:

The Gold Washing Plant also comes with a Mercury Amalgamation Barrel or Small Ball Mill, which is used to mix gold concentrate with mercury to form a gold and mercury mixture. This process is used to extract gold from the concentrate and is an essential step in the gold mining process.

Another key feature of the Gold Washing Plant is the Gold Sluice with Blanket. This is used to recover any remaining gold that may be left in the concentrator. The Gold Sluice with Blanket is an efficient and effective way to recover gold that may have been missed during the washing process.

The Gold Washing Plant is customizable based on mine details. This means that the plant can be designed to fit specific mining operations and conditions, making it an ideal piece of equipment for any gold mining operation.

Overall, the Gold Washing Plant is a reliable and efficient piece of mining machinery that is designed to help miners extract gold from alluvial placer deposits. With a processing capacity of 100-300 m³/h or 170-510 t/h, a gold Trommel screen washing plant, a Mercury Amalgamation Barrel or Small Ball Mill, and a Gold Sluice with Blanket, this plant has everything a miner needs to extract gold efficiently and effectively.

Product Name: Gold Washing Plant mining machinery for alluvial placer ore with 100 200 tons per hour capacity

Features:

Product Name: Gold Washing Plant

Processing Capacity: 100-300 m³/h or 170-510 t/h

Gold Sluice with Blanket: Used to recover remaining gold in the concentrator

Shaking Table: Further improves gold grade

Design: Customizable based on mine details

Electric Gold Melting Furnace: Used to heat gold and mercury mixture and obtain pure gold bar

This gold Trommel screen washing plant is the perfect solution for efficient gold mining operations. It is equipped with a gold sluice with blanket to recover remaining gold in the concentrator. The shaking table further improves gold grade, while the customizable design allows it to be tailored according to mine details. Additionally, the electric gold melting furnace is used to heat the gold and mercury mixture and obtain pure gold bar.

Technical Parameters:

Warranty Period	1 Year
Electric Gold Melting Furnace	Used to heat gold and mercury mixture and obtain pure gold bar
Shaking Table	Further improves gold grade
Capacity	10 To 100 Ton Per Hour
Processing Capacity	100-300 m ³ /h or 170-510 t/h
Core Selling Point	Hot Product 2024
Gold Sluice with Blanket	Used to recover remaining gold in the concentrator
Specification	GTS20, GTS50, MGT100, MGT200 models with varying size, capacity, power, trommel screen, sluice box, water supply, and recovery rate
Design	Customizable based on mine details
Applicable Industry	Energy&Mining

Applications:

Certified with CE/ISO9001, the Ascend Gold Washing Plant is manufactured in China and has a minimum order quantity of 1 set. The price ranges from USD 3500-30000 per set, and payment terms include T/T and Western Union. The supply ability is 10 sets per month, and the delivery time is 7-10 working days. The packaging details include water and rust proof in a wooden box or container.

The Gold Washing Plant is perfect for a variety of application occasions and scenarios. It can be used in remote areas where water is scarce, or where there is limited access to electricity. The product is also ideal for small-scale mining operations, where it can efficiently process large quantities of ore.

The Gold Washing Plant is a hot product in 2024. Its core selling point is its high efficiency and ability to recover a large amount of gold. The product is perfect for primary separation stage of placer gold mining.

Support and Services:

The Gold Washing Plant product comes with comprehensive technical support and services to ensure its proper functioning and

maintenance. Our team of experienced technicians and engineers provides on-site installation and commissioning of the plant. We also offer training programs for operators and maintenance personnel to ensure safe and efficient operations. In case of any technical issues, our technical support team is available 24/7 to assist you and provide remote troubleshooting and repairs. Additionally, we offer regular maintenance services and spare parts to keep the plant in optimal condition. Contact us for more information on our technical support and services for the Gold Washing Plant product.

Packing and Shipping:

Product Packaging:

The Gold Washing Plant will be carefully packed in a sturdy wooden crate to ensure safe transportation.

All components and parts will be securely fastened and protected with foam and bubble wrap.

The crate will be clearly labeled with the product name, dimensions, weight, and handling instructions.

Shipping:

The Gold Washing Plant will be shipped via a reliable and reputable shipping carrier.

The estimated shipping time is 7-14 business days, depending on the destination.

A tracking number will be provided once the product has been shipped.

FAQ:

Q1: What is the brand name of the Gold Washing Plant?

A1: The brand name of the Gold Washing Plant is Ascend.

Q2: What are the different models available for the Gold Washing Plant?

A2: The different models available for the Gold Washing Plant are GST20, GST40 and GST50.

Q3: Is the Gold Washing Plant certified?

A3: Yes, the Gold Washing Plant is certified with CE/ISO9001.

Q4: What is the minimum order quantity for the Gold Washing Plant?

A4: The minimum order quantity for the Gold Washing Plant is 1 set.

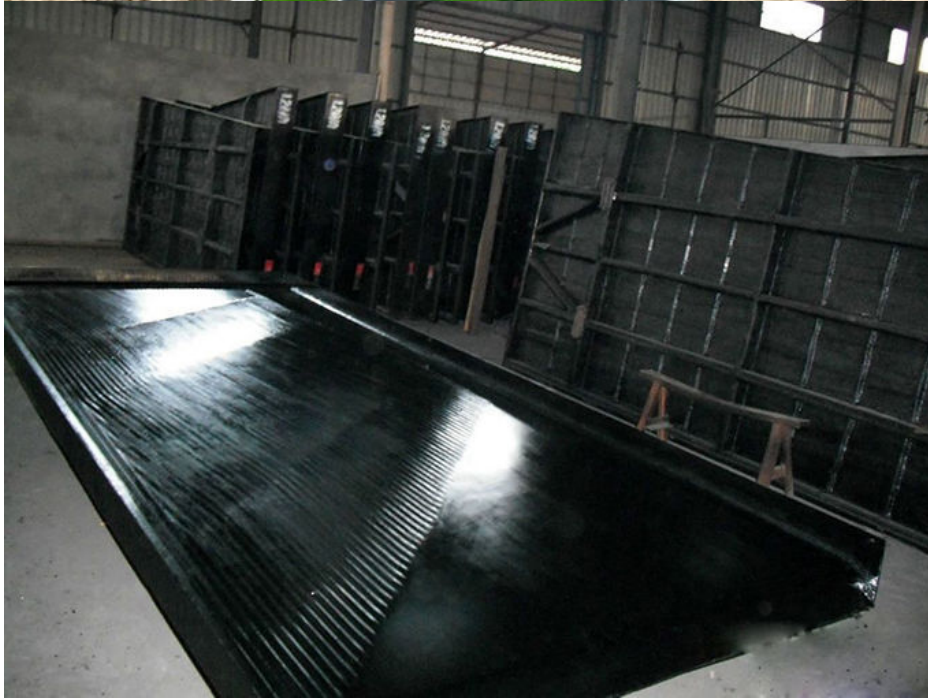

Q5: What are the payment terms for the Gold Washing Plant?

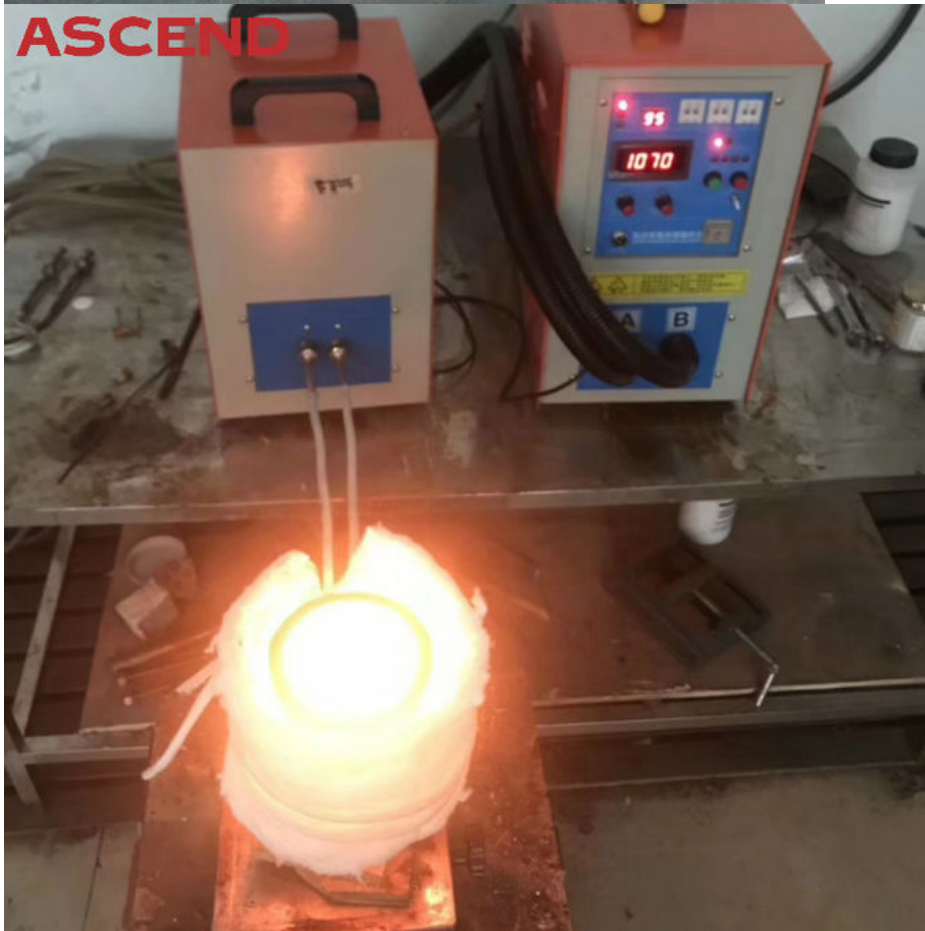

A5: The payment terms for the Gold Washing Plant are T/T and Western Union.
