

Electric Gold Melting Furnace For Gold Trommel Screen Washing Plant In Energy Mining

Our Product Introduction

more products please visit us on mining-crushermachine.com

Basic Information

- Place of Origin: China
- Brand Name: Ascend
- Certification: CE/ISSO9001
- Model Number: GST20 GST40 GST50
- Minimum Order Quantity: 1 set
- Price: USD 3500-30000 Per set
- Packaging Details: Water and rust proof in wooden box or cotainer
- Delivery Time: 7-10 working days
- Payment Terms: T/T, Western Union
- Supply Ability: 10 set per month

Product Specification

- Features: Drum Scrubber Washing Machine
- Mercury Amalgamation Used To Mix Gold Concentrate With Mercury Barrel Or Small Ball Mill: And Form Gold And Mercury Mixture
- Product Name: Gold Washing Plant Mining Machinery For Alluvial Placer Ore With 100 200 Tons Per Hour Capacity
- Gold Centrifugal Concentrator: Collects Gold Ore With Mesh Size From 200 To 40, Recovery Rate Up To 90%
- Warranty Period: 1 Year
- Capacity: 10 To 100 Ton Per Hour
- Advantages: Suitable For Small To Large Materials, Multiple Filters, Multilayer Displays, Replaceable Film Plate, Efficient And Large Capacity
- Applicable Industrv: Enerav&Minina

Product Description

Product Description:

The unique screen design of this gold washing plant allows for high capacity and performance while preventing clogging. This ensures that the gold is properly cleaned and separated from other materials. The shaking table further improves the gold grade, making it a highly effective tool for gold washing.

The Mercury Amalgamation Barrel or Small Ball Mill can be used to mix gold concentrate with mercury and form a gold and mercury mixture, which is a crucial step in the gold washing process. The Drum Scrubber Washing Machine is also included in the product, ensuring that the materials are properly washed and cleaned before the gold is extracted.

Overall, the Gold Trommel Screen Washing Plant is a highly efficient and effective product that is suitable for small to large materials. With its unique screen design, multiple filters, and large capacity, it ensures that the gold is properly separated and filtered, making it a highly valuable tool for anyone in the gold washing industry.

Features:

Product Name: Gold Washing Plant

Core Selling Point: Hot Product 2024

Shaking Table: Further improves gold grade

Specification:

Gold Trommel Screen Washing Plant

Models: GTS20, GTS50, MGT100, MGT200

Varying size, capacity, power, trommel screen, sluice box, water supply, and recovery rate

Design: Customizable based on mine details

Gold Sluice with Blanket: Used to recover remaining gold in the concentrator

Technical Parameters:

Product Category:	Gold Washing Plant
Gold Sluice with Blanket:	Used to recover remaining gold in the concentrator
Screen Design:	Unique design for high capacity and performance, prevents clogging
Usage:	Primary separation stage of placer gold mining
Warranty Period:	1 Year
Design:	Customizable based on mine details
Electric Gold Melting Furnace:	Used to heat gold and mercury mixture and obtain pure gold bar
Mercury Amalgamation Barrel or Small Ball Mill:	Used to mix gold concentrate with mercury and form gold and mercury mixture
Gold Centrifugal Concentrator:	Collects gold ore with mesh size from 200 to 40, recovery rate up to 90%
Specification:	GTS20, GTS50, MGT100, MGT200 models with varying size, capacity, power, trommel screen, sluice box, water supply, and recovery rate

Applications:

The Ascend Gold Washing Plant is a top-of-the-line product designed for primary separation stage of placer gold mining. It is a hot product in 2024 that comes in three different models namely GST20, GST40, and GST50. All models are certified with CE/ISO9001 and originate from China. The minimum order quantity for this product is 1 set with a price range of USD 3500-30000 per set. Payment terms accepted are T/T and Western Union, and the supply ability is 10 sets per month with a delivery time of 7-10 working days.

The Gold Washing Plant is a comprehensive set of equipment that includes a gold Trommel screen washing plant, gold centrifugal concentrator, and shaking table. The gold Trommel screen washing plant is used to wash and screen the gold ore with mesh size from 200 to 40. The gold centrifugal concentrator collects the gold ore and has a recovery rate of up to 90%. The shaking table improves the gold grade further.

The Gold Washing Plant is applicable to the Energy & Mining industry. It is ideal for use in primary separation of placer gold mining. The product is water and rust proofed with wooden box or container packaging. The product is a hot-seller in 2024 due to its efficiency and effectiveness.

Some of the product application occasions and scenarios are:

Small to large scale placer gold mining sites

Gold ore washing and screening

Gold ore concentration and refining

Gold extraction and separation

Gold mining exploration sites

Overall, the Ascend Gold Washing Plant is a reliable and efficient set of equipment that is perfect for primary separation of placer gold mining. Its unique features, including the gold Trommel screen washing plant and gold centrifugal concentrator, make it a top choice for any mining operation.

Support and Services:

The Gold Washing Plant product is designed to efficiently wash and recover gold from placer deposits, tailings, and other types of gold-bearing material. Our technical support team is available to assist with any questions or issues that may arise during installation, operation, or maintenance of the product.

We also offer a range of services to ensure optimal performance and longevity of the Gold Washing Plant, including:

Regular maintenance and inspections

Equipment repairs and replacement parts

Upgrades and modifications to meet changing needs

Training and education for operators and maintenance personnel

Our goal is to provide reliable and effective support and services for the Gold Washing Plant, so that our customers can maximize their gold recovery and mining operations.

Packing and Shipping:

Product Packaging:

This Gold Washing Plant will be packaged in a sturdy cardboard box to ensure safe transportation. The box will be labeled with the product name and a picture of the item.

Shipping:

We offer free shipping to customers within the United States. We use a reliable shipping company to ensure timely delivery of your Gold Washing Plant. International customers will be responsible for any customs duties or taxes that may apply.

FAQ:

A: The brand name of the washing plant is Ascend.

Q: What are the different models available for the washing plant?

A: The different models available for the washing plant are GST20, GST40, and GST50.

Q: What certifications does the washing plant have?

A: The washing plant has CE/ISO9001 certification.

Q: What is the place of origin for the washing plant?

A: The washing plant is manufactured in China.

Q: What is the minimum order quantity for the washing plant?

A: The minimum order quantity for the washing plant is 1 set.

Q: What are the payment terms for the washing plant?

A: The payment terms for the washing plant are T/T and Western Union.

Q: What is the supply ability of the washing plant per month?

A: The supply ability of the washing plant is 10 sets per month.

Q: What is the delivery time for the washing plant?

A: The delivery time for the washing plant is 7-10 working days.

Q: What are the packaging details of the washing plant?

A: The washing plant is water and rust proof and is packaged in a wooden box or container.

Q: What is the price of the washing plant?

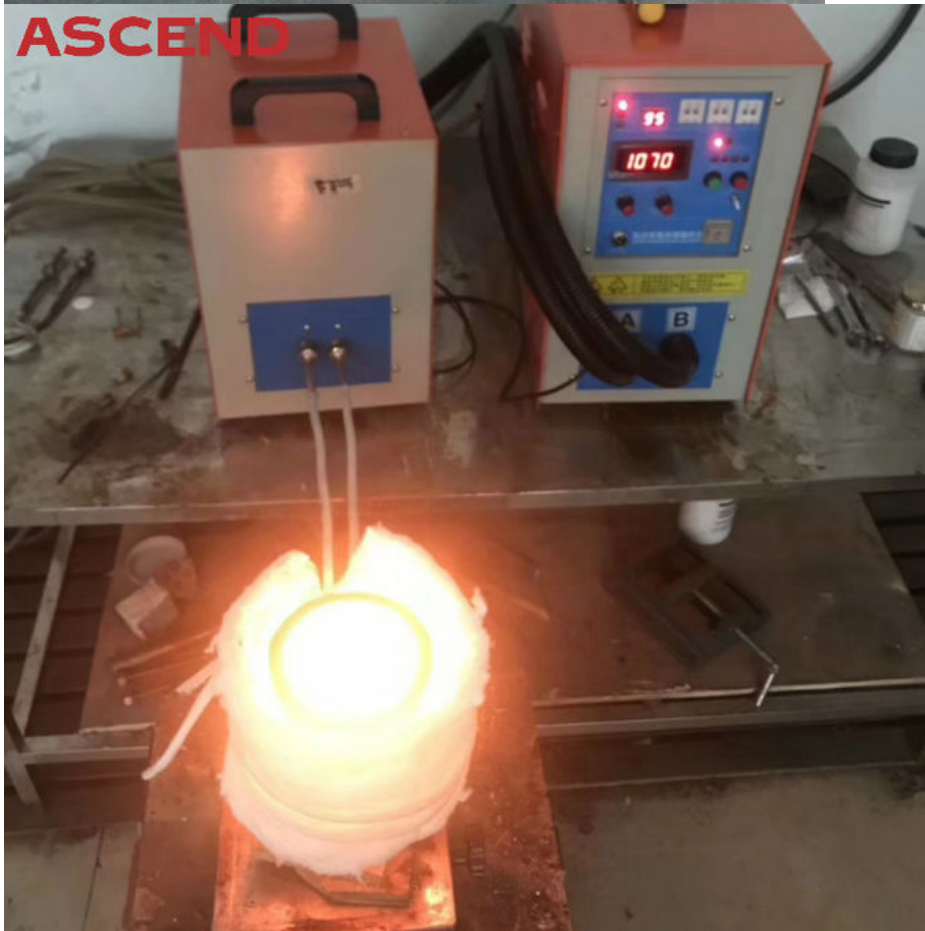

A: The price of the washing plant ranges from USD 3500-30000 per set.
