

## Energy Mining Industry Primary Separation Stage Of Placer Gold Mining Gold Trommel Screen Washing Plant

### Our Product Introduction

more products please visit us on [mining-crushermachine.com](http://mining-crushermachine.com)

#### Basic Information

- Place of Origin: China
- Brand Name: Ascend
- Certification: CE/ISSO9001
- Model Number: GST20 GST40 GST50
- Minimum Order Quantity: 1 set
- Price: USD 3500-30000 Per set
- Packaging Details: Water and rust proof in wooden box or cotainer
- Delivery Time: 7-10 working days
- Payment Terms: T/T, Western Union
- Supply Ability: 10 set per month

#### Product Specification

- Gold Sluice With Blanket: Used To Recover Remaining Gold In The Concentrator
- Screen Design: Unique Design For High Capacity And Performance, Prevents Clogging
- Product Category: Gold Washing Plant
- Processing Capacity: 100-300 M³/h Or 170-510 T/h
- Mercury Amalgamation Barrel Or Small Ball Mill: Used To Mix Gold Concentrate With Mercury And Form Gold And Mercury Mixture
- Electric Gold Melting Furnace: Used To Heat Gold And Mercury Mixture And Obtain Pure Gold Bar
- Core Selling Point: Hot Product 2024
- Applicable Industry: Energy&Mining
- Highlight: **Gold Trommel Screen Washing Plant, Placer Gold Mining Trommel Screen,**

## Product Description

### Product Description:

#### Features:

Product Name: Gold Washing Plant

Processing Capacity: 100-300 m<sup>3</sup>/h or 170-510 t/h

Advantages:

Suitable for small to large materials

Multiple filters

Multilayer displays

Replaceable film plate

Efficient and large capacity

Warranty Period: 1 Year

Gold Sluice with Blanket: Used to recover remaining gold in the concentrator

Electric Gold Melting Furnace: Used to heat gold and mercury mixture and obtain pure gold bar

#### Technical Parameters:

<b>Product Name:</b>	Gold Washing Plant mining machinery for alluvial placer ore with 100 200 tons per hour capacity
<b>Specification:</b>	GTS20, GTS50, MGT100, MGT200 models with varying size, capacity, power, trommel screen, sluice box, water supply, and recovery rate
<b>Features:</b>	Drum Scrubber Washing Machine
<b>Screen Design:</b>	Unique design for high capacity and performance, prevents clogging
<b>Gold Sluice with Blanket:</b>	Used to recover remaining gold in the concentrator
<b>Gold Centrifugal Concentrator:</b>	Collects gold ore with mesh size from 200 to 40, recovery rate up to 90%
<b>Mercury Amalgamation Barrel or Small Ball Mill:</b>	Used to mix gold concentrate with mercury and form gold and mercury mixture
<b>Shaking Table:</b>	Further improves gold grade
<b>Warranty Period:</b>	1 Year
<b>Applicable Industry:</b>	Energy&Mining

#### Applications:

The Gold Trommel Screen Washing Plant is a highly efficient and customizable product that can be designed to suit the specific details of any mine. It is capable of processing 10 to 100 tons of material per hour and can further improve gold grade through the use of a shaking table. Additionally, the product comes with a mercury amalgamation barrel or small ball mill, which can be used to mix gold concentrate with mercury and form a gold and mercury mixture.

One of the key application occasions for the Gold Trommel Screen Washing Plant is in the processing of alluvial gold deposits. These deposits are found in rivers, streams, and other waterways, and can be difficult to process without the right equipment. The Gold Trommel Screen Washing Plant is perfect for this task, as it can easily separate gold from other materials and ensure a high yield.

Another scenario where the Gold Trommel Screen Washing Plant excels is in the processing of gold tailings. These are the leftover materials from previous mining operations and can contain a significant amount of gold. The Gold Trommel Screen Washing Plant can efficiently extract this gold and help to reduce waste and environmental impact.

The Gold Trommel Screen Washing Plant is also ideal for use in large-scale mining operations, where a high volume of material needs to be processed quickly and efficiently. Its customizable design means that it can be tailored to meet the specific needs of any mine, and its high capacity ensures that it can handle even the most demanding of tasks.

Overall, the Gold Trommel Screen Washing Plant is a versatile and efficient product that is suitable for use in a wide range of mining scenarios. With a supply ability of 10 sets per month and a delivery time of just 7-10 working days, it is a reliable and efficient investment for any mining operation. The product is also water and rust proof and comes in a wooden box or container, ensuring that it arrives in excellent condition. And with a one-year warranty period, customers can be confident in their purchase and enjoy peace of mind knowing that they are protected against any defects or malfunctions.

Payment terms for the Gold Trommel Screen Washing Plant include T/T and Western Union, making it easy for customers to purchase the product in a way that suits their needs. So whether you're processing alluvial gold deposits, extracting gold from tailings, or running a large-scale mining operation, Ascend's Gold Trommel Screen Washing Plant is the perfect product to help you achieve your goals.

## Support and Services:

The Gold Washing Plant product comes with technical support and services to ensure optimal performance and longevity. Our technical team is available to provide assistance with installation, maintenance, and troubleshooting. In addition, we offer training services to ensure proper usage and operation of the equipment. Our services include regular inspections and preventive maintenance to keep the plant running smoothly and efficiently. We also offer repair services and replacement parts to minimize downtime and ensure continuous operation. Contact us for more information on our technical support and services for the Gold Washing Plant.

## Packing and Shipping:

Product Packaging:

The gold washing plant will be packed in a sturdy wooden crate.

All parts and components will be securely fastened to prevent damage during transportation.

The crate will be properly labeled and identified with all necessary shipping information.

Shipping:

The gold washing plant will be shipped via sea freight.

We will arrange for the necessary customs clearance and documentation.

The estimated shipping time is 4-6 weeks depending on the destination.

We will provide tracking information and updates on the shipment status.

## FAQ:

**Q1: What is the brand name of the washing plant?**

A1: The brand name of the washing plant is Ascend.

**Q2: What models are available for the washing plant?**

A2: The available models for the washing plant are GST20, GST40, and GST50.

**Q3: What certifications does the washing plant have?**

A3: The washing plant is certified with CE/ISO9001.

**Q4: What is the minimum order quantity for the washing plant?**

A4: The minimum order quantity for the washing plant is 1 set.

**Q5: What are the payment terms for purchasing the washing plant?**

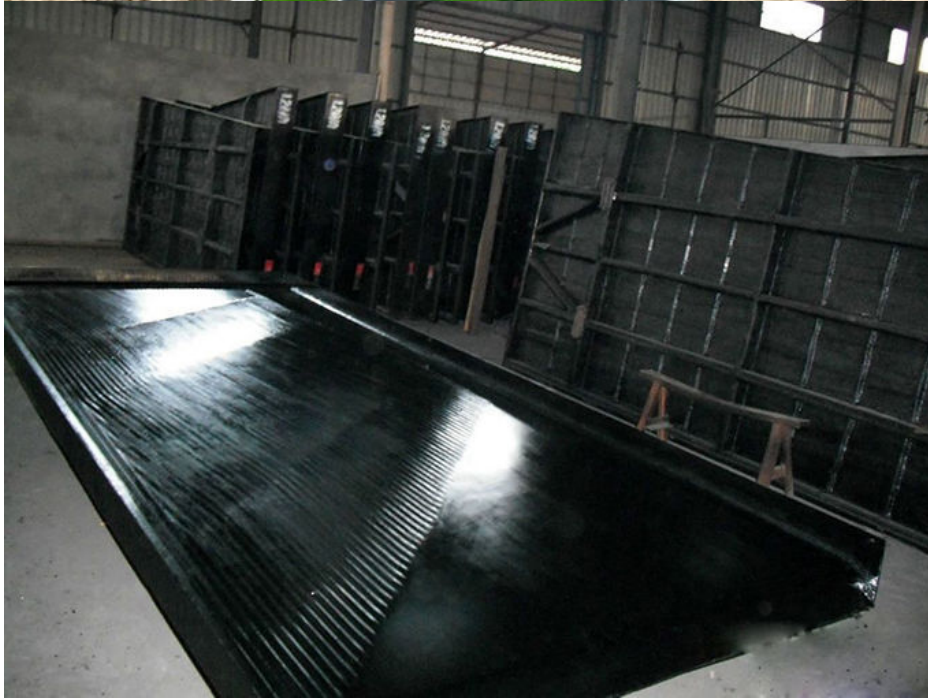

A5: The available payment terms for purchasing the washing plant are T/T and Western Union.
