

50 100 T/h Capacity Diesel Engine Mobile Jaw Crusher With Wheels And Trailer For Sand Stone Processing Production Lines

Basic Information

- Place of Origin: CHINA
- Brand Name: ASCEND
- Certification: ISO9001
- Model Number: PE150x250, PE250x400, PE200x300, PE250x300, PE400x250
- Minimum Order Quantity: 1 set
- Price: USD 6600-9600 set
- Packaging Details: Water and rust proof in wooden box or container
- Delivery Time: 7-10 working days
- Payment Terms: T/T, Western Union
- Supply Ability: 10 set per month

Product Specification

- Product Name: Mobile Jaw Crusher
- Function: Stone Rock Gravel Metal Crushing
- Usage: Crushing Work
- After-sales Service Provided: 24H On-Line Support
- Warranty Period: 1 Year
- Highlight: 50 t/h mobile jaw crusher, sand stone mobile jaw crusher, 100 t/h mobile jaw crusher

Product Description

Big scale mobile stone crushers for quartz basalt dolomite gold ore crushing

Mobile stone crusher also called mobile crusher plant, mobile stone crusher, or mobile crushing plant. This mobile jaw crusher is an integrated machine of vibrating feeder, stone crusher, belt conveyor, vibrating screen and other auxiliary parts. So mobile crusher is a mobile stone crushing plant in fact. The mobility of mobile crusher can overcome the limited by the crushing place, and reduces high material transportation cost meanwhile. The most important is that, powder supply can be diesel engine or motor drive. If the quarry doesn't have electric, it can work with diesel engine power supply.

Features and Advantages:

Easy to move: Not limited by the site, it can be moved according to customer requirements.

It is driven by a diesel engine or an electric motor. If there is no electricity in the quarry, a diesel engine can be used to supply power.

High crushing ratio: Large stones can be quickly broken into small pieces.

Hopper mouth adjustment range is large, can meet the requirements of different users.

High capacity: It can handle 10- 200 tons per hour capacity.

Simple structure and Simple maintenance.
Reliable operation, low operating costs.

Raw material & Final products

Spare parts

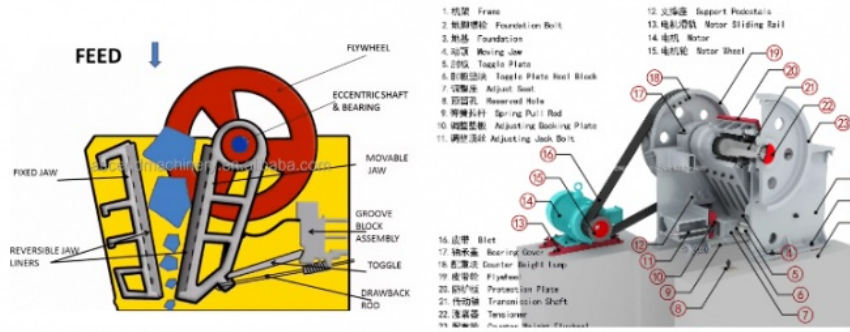

Working principle

According to the requirements of different crushing processes, we can also form the process flow of "first crushing and then screening" or "first screening and then crushing". And we can combine three screening systems of coarse crushing, medium crushing and fine crushing according to actual needs.

1. Vibrating feeder 2. Jaw crusher 3. Heavy duty rock 4. Discharging belt conveyor

Specification

Model	Feed opening size(mm)	Max feeding size(mm)	Discharge range(mm)	Capacity (t/h)	Power (kw)	Weight (t)
PE150x250	150x250	125	10-40	1-3	5.5	0.7
PE250x400	250x400	210	20-60	10-20	15	2.8
PE400x600	400x600	340	40-100	30-50	30	7
